Professional Summary

UI/UX Designer with 5+ years of experience in SaaS, websites, and digital products, and 8+ years of front-end development background. Strong product mindset with hands-on experience in full-cycle delivery — from research and UX strategy to UI design, front-end implementation, analytics, and marketing setup.

Experienced in working directly with clients, managing multiple projects in parallel, and collaborating in cross-functional teams using Agile, Scrum, Kanban, and Waterfall methodologies.

Professional Experience

Graphic Designer
Gamdom · Remote
Quirius Technologies LLC, Belize | Apr 2026 – Present

- Replaced one-by-one export with a Figma-to-AVIF pipeline and a searchable library of 5,000+ catalog images
- Took production requests in English from design and development and folded repeat work into that pipeline

UI Designer & Front-end Developer
ILF-Studio | Poland | Jan 2021 – Feb 2022 (full-time) — Present (part time)

- Designed and developed responsive websites and digital products from concept to launch
- Managed full product lifecycle: research, UX strategy, UI design, prototyping, and front-end implementation
- Delivered end-to-end projects including analytics setup and marketing collaboration
- Supported clients with advertising setup and performance tracking
- Worked directly with stakeholders to define scope, prioritize features, and align business goals with user needs
- Managed multiple projects in parallel while maintaining delivery timelines
- Used Figma and AI-assisted tools to streamline design and development workflows

Front-end Developer
ILF-Studio | Belarus | Nov 2012 – Dec 2020

- Built and maintained custom websites with focus on scalability and performance
- Translated UI designs into structured, maintainable front-end code (HTML, CSS)
- Delivered turnkey digital solutions for small and medium-sized businesses
- Collaborated with marketing specialists and analysts to improve website performance
- Participated in requirements gathering and client communication
- Worked in Agile (Scrum, Kanban) and Waterfall environments

Technical & Product Skills

Product & UX

- User research & usability testing
- Wireframing & interactive prototyping
- Information architecture
- Design systems & component-based design
- Accessibility standards (WCAG)
- Product discovery & requirements gathering

Development

- HTML, CSS, javascript, SQL
- Strong understanding of front-end architecture
- Design-to-development handoff
- Responsive design implementation
- Performance optimization

Marketing & Analytics

- Client website launches and full-cycle
- Collaboration with marketing teams
- Analytics setup and performance monitoring
- Support in ad campaign setup and optimization
- Data-informed product decisions

Tools

Figma | FigJam | Adobe XD | Miro | Cursor (AI-assisted development) | Stitch | Figma Make | Lovable

Core Competencies

- Cross-functional collaboration
- Stakeholder communication
- Client-facing project leadership
- Product presentations & solution pitching
- Ability to manage multiple projects simultaneously
- Strong time management
- Experience working in Scrum, Kanban, and Waterfall environments
